AMENDMENT

Sir:

In response to the Office Action dated May 8, 2001, please amend the above-identified application in the following manner:

IN THE SPECIFICATION:

Page 2, ¶3, lines 10-14:

Accordingly, in a system and method in accordance with the present invention, a photo photoresist that is capable of thinner profile, i.e., DUV photoresist, is utilized. This will allow one to lower the photoresist thickness to the proposed 1000A (in the field) or lower if the process allows. With this photoresist thickness, taking into account other height variables, the source and drain regions can be opened only as needed.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to Commissioner of Patents and Trademarks, Washington, D.C. 20231, on July 26, 2001.
